OUR SERVICES

PEB Works

At White Lotus Roofing and Steel, we take pride in being one of Chennai's foremost Pre-Engineered Building (PEB) contractors, renowned for delivering dependable and efficient steel structure solutions. Our reputation for completing projects on schedule and within budget has made us the go-to choice for a wide range of construction needs across various industries.

We specialize in PEB construction, providing top-tier solutions for industrial, commercial, and residential projects. Our services include industrial shed construction, warehouse construction, factory buildings, and commercial building construction.

Our experienced team manages every phase of the PEB process, from initial design to final installation. Using cutting-edge PEB design software and advanced construction techniques, we create durable, cost-effective, and high-performance structures that meet the highest industry standards. Pre-Engineered Buildings (PEBs) are ideal for industrial and commercial sectors, offering speed, flexibility, and long-term reliability.

At White Lotus Roofing and Steel, we offer comprehensive turnkey PEB solutions that deliver high-quality, ready-to-use buildings tailored to your specific needs and budget. With our unwavering commitment to quality and customer satisfaction, we have become the preferred partner for PEB construction in Chennai. Let us bring your vision to life with our expert solutions.

OUR SERVICES

Roof Sheets

At White Lotus Roofing and Steel, we offer high-quality PEB roof sheets that are designed to provide exceptional durability, performance, and protection for your building. Our roof sheets are made from premium materials and engineered to withstand harsh weather conditions, making them ideal for a wide range of applications, including industrial sheds, warehouses, commercial spaces, and residential projects.

Our PEB roof sheets are built to last, offering excellent resistance to corrosion, rust, and UV damage, ensuring a long lifespan with minimal maintenance. With advanced thermal insulation properties, they help regulate indoor temperatures, improving energy efficiency and reducing cooling costs. Available in various profiles, colors, and finishes, our roof sheets can be customized to meet the aesthetic and functional needs of your project.

Designed for easy and quick installation, our roof sheets reduce construction time and labor costs, while providing a seamless fit for your pre-engineered building (PEB) structure. Whether you are constructing an industrial facility, a commercial building, or a residential home, White Lotus Roofing and Steel provides reliable roofing solutions that offer both strength and efficiency.

OUR SERVICES

Purlins Z & C

White Lotus uses standard components and designs to manufacture a wide range of structural subsystems according to customers' requirements. These structural subsystems fulfill the requirements of two types viz. Aesthetic and Functional. White Lotus produces a large number of structural subsystems according to exact specifications as the strength of the pre-engineered building system depends largely on various incorporated structural subsystems. Subsystems are available for the following structures
